What is a Financial Services Guide (FSG)?

The purpose of this FSG is to provide you with key information about us and the services we can provide to you. It is designed to assist you in your decision on whether to use any of our services described here, including purchasing general insurance through us. This FSG contains important information about:

- how we are paid for the services;
- any associations or relationships that could influence the services we provide to you; and
- the dispute resolution procedures available to you and how you can access them.

What other documents will we give you?

If we give you personal advice about a retail (i.e. personal) general insurance product it will be confirmed in writing, and will show details about fees and commissions we receive.

If we recommend or arrange for you to purchase a general insurance product, you will be provided with either a product disclosure statement (PDS) or a policy document, depending on the product. The PDS or policy document describes the benefits and conditions for cover under the product. You should read the documents to ensure you know what is covered and what is excluded and ensure it meets your needs and you are aware of your obligations.
